

REGISTER FOR CHADIS

Dear Parents, Caregivers and Family Members:

We have a system called CHADIS that helps us provide your family with the best care possible. "CHADIS" stand for "Child Health and Development Interactive System." CHADIS helps you communicate securely with your doctor over the Internet before your office visit.

You can use CHADIS on a computer, tablet (such as I Pad) or smart phone (Android, Windows, iPhone, etc) to:

- Tell us about any problems or concerns you want to discuss
- Complete your developmental milestones checklist at home
- Give us your child's medical history and background

You should complete the CHADIS questionnaires before EVERY visit.

All answers are completely confidential and cannot be viewed by anyone except your doctor.

IMPORTANT NOTE: YOU MAY ONLY ACCESS CHADIS THROUGH THE BROWSER VIA OUR PATIENT PORTAL. YOU MAY NOT USE THE HEALOW APP TO ACCESS CHADIS.
